Walking Map - Hornsby South Public School

The map over the page provides the safest walking route between Hornsby South Public School and Pacific Highway, Hornsby. The suggested walking route is displayed as a dotted line (•••••) and identifies pedestrian crossings for safe active travel.

Suggested walking route directions

- Cross using the signalised pedestrian crossings where required (Pacific Highway, College Crescent, Pretoria Parade).
- Walk west on the southern footpath of Pretoria Parade for 153 metres towards Fuller Avenue.
- Turn left onto Fuller Avenue and walk 300 metres on the eastern footpath down to Hall Road.
- Turn right onto Hall Road and walk 59 metres west to Neutral Road.
- Turn left onto Neutral Road and walk south 115 metres south on the eastern footpath towards (crossing Alliedale Close) the pedestrian crossing.
- Cross Neutral Road on the pedestrian crossing to the western footpath and walk 57 metres south to Clarke Road.
- Turn right onto Clarke Road and walk 50 metres west on the northern footpath to the pedestrian crossing.
- Cross at the pedestrian crossing for direct access to Hornsby South Primary School.

Safe Walking Tips

- Always use pedestrian crossings.
- Never assume that a driver can see you or will stop for you. Their vision may be affected by the sun, poor light, parked cars or other distractions.
- Remember that drivers take longer than usual to stop in the rain or on a wet road.
- At intersections, check for turning vehicles before you leave the footpath and while you are crossing the road.
- Children up to ten years old should hold an adult's hand in the car park, on the footpath and when crossing the road.
- Avoid using a mobile phone, head phones or other device while you are crossing the road.
- Watch out for bicycles.

Signalised Pedestrian Crossings (at traffic lights):

- provide a set period of time for pedestrians to cross the road whilst vehicles are stopped at traffic lights
- alert pedestrians when to cross the road: the green man signal lights up and the audio beeping sound increases in pulse
- warn pedestrians to promptly complete their road crossing and alerts approaching pedestrians to not begin crossing the road when the red man signal flashes
- alert pedestrians to remain on the footpath and not cross the road when the static red man signal and slow audio beep appear
- rule that drivers turning left or right must give way to all pedestrians who are crossing the road the driver is entering.

Pedestrian Crossings (zebra crossings):

- are usually marked by white painted stripes on the road
- may have zig zag lines marked on the road to alert drivers they are approaching a crossing
- help pedestrians cross the road safely

Road Safety Tips:

- For your safety all pedestrians should stop, look, listen, think every time you cross the road. Wait until all vehicles have completely stopped before stepping onto the road.
- If the road beyond a pedestrian crossing is blocked, drivers must not drive onto the crossing.
