

Purpose

This procedure guides student use of digital devices and online services at our school. Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in safe, responsible and respectful ways.

Scope

This procedure provides a consistent framework for the safe, responsible and respectful use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing. This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

Our School's Approach

GUIDELINES FOR ACCEPTABLE USE

1. Students are only permitted to bring a mobile phone or digital device to school once the Appropriate Use of Mobile Phones or Digital Devices at School agreement has been co-signed by the parent and student (EVERY SCHOOL YEAR).
2. Phones should be turned to silent when entering the school until school finishes in the afternoon at 3pm. If a parent needs to communicate with a child during the day, this should be done through the front office in person or phone 9489 2410.
3. Students must take responsibility for their own digital device.
4. Students should protect their phone numbers by only giving the number to friends and family to ensure they are receiving communication from people known to them. It is strongly advised that students use passwords or pin numbers to ensure unauthorised phone calls or SMS messages cannot be made from their phone by anyone other than the owner of the phone. Students must not lend a phone to another student at any time. The student who owns the phone will be held responsible for its use.
5. The phone will be labelled with the student's name for identification.
6. Students will only take photographs/videos of other people with their consent and the consent of a teacher.

Students are also not permitted to bring or use mobile phones/digital devices during school excursions, camps or extra-curricular activities. In the case of school camps involving overnight stays, the school does not allow students attending to carry mobile phones or digital devices. (Staff carry mobile phones for emergency purposes.)

For Staff

During teaching time, while on playground duty and during meetings, mobile phones should be switched to 'silent', except in urgent or exceptional situations, mobile phone use is not permitted during teaching time. Teachers may use their phones to take photos of students and/or their work for classroom use. They may also use phone Apps to support student learning.

For Parents and Community Members

At all official school functions, during meetings or when assisting in classrooms, mobile phones should be switched to 'silent'.

Exemptions

An exemption from parts of this policy or the school procedure can be requested from the principal by parents, carers, school counsellors and other student support staff, and, if required, students themselves. This may cover times when or places where use would otherwise be restricted. Except where required by law, the school principal has discretion to consider and approve exemptions and to choose which parts of the school procedure the exemptions applies. The exemption may be ongoing or for a certain time period.

Consequences for inappropriate use

- Completion of a PBL reflection
- Student is reminded of Stop-Think-Act or other self-regulation techniques
- Student may be given a warning from a teacher or other staff member
- Student is referred to the Assistant Principal, Deputy Principal or Principal
- Student's access to the school network may be restricted through the EMU tool on the DoE portal
- Teacher or Principal may arrange a meeting with the student's parent or carer
- Student's digital device may be confiscated by a staff member
- Confiscated devices are held in the Principal's office until a parent or carer collects the device
- Suspension and possible Police and/or Child Wellbeing involvement for serious incidents

Contact between students and parents and carers during the school day

Should a student need to contact a parent or carer during the school day, they must approach the administration office and ask for permission to use the school's phone. During school hours, parents and carers are expected to only contact their children via the school office.

Responsibilities and obligations

For students

- Follow the school's ICT PBL Expectations
- Be safe, responsible and respectful users of digital devices and online services, and support their peers to be the same.
- Respect and follow school rules and procedures and the decisions made by staff, knowing that other schools may have different arrangements.
- Communicate respectfully and collaboratively with peers, school staff and the school community and behave in the ways described in the Behaviour Code for Students.

For parents and carers

- Recognise the role they play in educating their children and modelling the behaviours that underpin the safe, responsible and respectful use of digital devices and online services.
- Support implementation of the school procedure, including its approach to resolving issues.
- Take responsibility for their child's use of digital devices and online services at home such as use of online services with age and content restrictions.

- Communicate with school staff and the school community respectfully and collaboratively as outlined in the 2018 School Community Charter (<https://education.nsw.gov.au/public-schools/going-to-a-public-school/school-community-charter>).
- Switch off or put their digital devices on silent when at official school functions, during meetings and when assisting in the classroom.

For the principal and teachers

- During teaching time, while on playground duty and during meetings, mobile phones should be switched to 'silent', except in urgent or exceptional situations, mobile phone use is not permitted during teaching time. Teachers may use their phones to take photos of students and/or their work for classroom use. They may also use phone Apps to support student learning.
- Deliver learning experiences that encourage safe, responsible and respectful use of digital devices and online services. This includes: establishing agreed classroom expectations for using digital devices and online services, in line with this procedure and departmental policy; identifying strategies to ensure that all students are able to engage in classroom activities including strategies to accommodate students without a digital device; reading and abiding by the Terms of Service for any online services they use in teaching, including those limiting use by age; and educating students about online privacy, intellectual property, copyright, digital literacy and other online safety related issues.
- Model appropriate use of digital devices and online services in line with departmental policy.
- Respond to and report any breaches and incidents of inappropriate use of digital devices and online services as required by school procedures, departmental policy and any statutory and regulatory requirements. This includes: reporting the creation, possession or distribution of indecent or offensive material to the Incident Support and Report hotline as required by the Incident Notification and Response Policy and Procedures and consider any mandatory reporting requirements; working with the department and the Office of the eSafety Commissioner (if necessary) to resolve cases of serious online bullying and image-based abuse; and following the school's behaviour management plan when responding to any incident of inappropriate student behaviour relating to the use of digital devices or online services.
- If feasible and particularly as issues emerge, support parents and carers to understand strategies that promote their children's safe, responsible and respectful use of digital devices and online services.
- Participate in professional development related to appropriate use of digital devices and online services.

For non-teaching staff, volunteers and contractors

- Be aware of the department's policy, this procedure and act in line with the conduct described.
- Report any inappropriate use of digital devices and online services to the principal, school executive or school staff they are working with.

Communicating this procedure to the school community

Students:

- Student preferences will be explored via a Student Representative Council meeting.
- Classroom teachers will inform their students about this new procedure.

Parents and carers:

- Parent and carer preferences will be explored via a P&C meeting.
- Parents and carers will be advised via the school newsletter.
- This procedure can be accessed electronically via the school's website and in hardcopy at the school's administration office.

Complaints

If a student, parent or carer has a complaint under this procedure, they should first follow our school's complaints process. If the issue cannot be resolved, please refer to the Department's guide for making a complaint about our schools (<https://education.nsw.gov.au/about-us/rights-and-accountability/complaints-compliments-and-suggestions>).

Review

The principal or delegated staff will review this procedure annually.

Appendix 1: Key terms

- Digital citizenship refers to the skills and knowledge a person needs to effectively use digital technologies in a positive way so they can participate in society, communicate with others, and create and consume digital content.
- Digital devices are electronic devices that can receive, store, process and share digital information and connect to applications (apps), websites and other online services. They include desktop computers, laptops, tablets, smartwatches, smartphones and other devices.
- Digital literacy is the set of social, emotional and technological skills and competencies that people need to understand to use digital devices and online services, and to expand their opportunities for education, employment and social participation, including entertainment.
- Educational purpose is any use approved by school staff that supports student learning, wellbeing and educational outcomes.
- General capabilities are the broad collection of knowledge, skills, behaviours and dispositions described within the Australian curriculum and NSW syllabus.
- Image-based abuse occurs when intimate, nude or sexual images are distributed, or threatened to be distributed, without the consent of those pictured. This includes real, altered and drawn pictures and videos. This is a crime in NSW.
- Online bullying involves using technology such as the internet or mobile devices to bully someone. Bullying behaviour has three key features. It involves the intentional misuse of power in a relationship. It is ongoing and repeated, and it involves behaviours that can cause harm. Bullying behaviour can also involve intimidation, victimisation and harassment, including that based on sex, race, religion, disability, or sexual orientation.
- Online safety is the safe, responsible and respectful use of digital media, devices, other technology and online services.
- Online services are any software, website or application that can gather, process or communicate information. This includes digital classrooms, chat and messaging, online games, virtual reality, social media and other online spaces.
- Reasonable adjustment is a measure or action taken to assist a student with disability to participate in education and training on the same basis as other students.
- School-related settings include school grounds, school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This connection may exist in situations where: there is discussion about school taking place outside of school hours; a student is wearing their school uniform but is not on school premises; a relationship between parties commenced at school; students are online in digital classrooms; and where online contact has flow on consequences at school and duty of care requires the school to respond once an incident is reported.
- School staff refers to school personnel who have some level of responsibility for implementing policy and the school digital devices and online service procedure. This includes principals, senior staff, teachers, non-teaching staff, school administrative staff, volunteers and contracted staff engaged by schools.

Appendix 2: What is safe, responsible and respectful student behaviour?
